

Medical shredder-Double shaft

**Product Name: Medical Shredder**  
**Model: KMI100**

**Specification :**

<b>Destroying method</b>	Double shaft cutting
<b>Product size</b>	800x700x1200mm
<b>Crushing capacity</b>	100-150kg/hour
<b>Power supply</b>	three phase power supply
<b>Internal protection</b>	overload protection , leakage protection
	Thermal hypersensitivity protection,
<b>Interface voltage</b>	Safety low voltage on the operation panel.
<b>Output power</b>	3000VA
<b>Material of shell</b>	Mild steel powder coated, white.
<b>Temperature</b>	in operation: -5°C~+50°C
	stored: -20°C~+55°C
<b>Relative humidity</b>	60%~80%
<b>Waste collector</b>	1pc of Waste collector
<b>Number of knife</b>	7X2=14pcs(two shaft, Rotor knife)
	14pcs (fixed knife)
<b>Motor</b>	Quiet and low speed motor.
<b>Waste collector</b>	1pc,blue color, 500*380*285mm
<b>Low noise</b>	60 - 70 dB (A)
<b>Rpm</b>	30
<b>Destroying material</b>	plastic utensils, syringes, test tubes, ELISA plate, dish, dilution cup, straw, tip, urine cup and so on
<b>Packing</b>	Wooden case packing, size:900*830*1360mm
<b>Weight</b>	N.W:450KG/G.W:500KG
